Refreshingly Simple Bookkeeping Software

Intuitive And Easy To Use, We Developed Pandle Specifically For Companies, Contractors And Small Businesses Just Like Yours.

- ✓ Free live chat support
- ✓ Fully MTD compliant

Intuitive And Easy To Use

Pandle is simple and easy to navigate. We've helped over 65,000 businesses in the UK and beyond reduce the stress of their bookkeeping, by streamlining every process.

Designed To Save You Time

Pandle automates your most time-consuming bookkeeping tasks, such as importing and confirming bank transactions, or sending payment reminders and recurring invoices.

Insightful And Speedy Support

Live chat and email support is provided by our very own accountants, who helped us to develop the software. We also have a help centre featuring a range of guides and videos.

Regular Bookkeeping Reviews

One of Pandle's most impressive features is how far it goes to help you reduce human error to as close to zero as possible. The software uses a range of preventative measures to ensure accuracy throughout your bookkeeping records.

Just to make sure, our accountants will also periodically review your records to make sure everything is in order and then notify you of their findings. All of this means you can be safe in the knowledge that we're working our socks off to keep your business accounting in tip-top condition.

Pandle Pro For Free

When you join us as a client, one of the many perks is that you get to use Pandle Pro for free as we waive the standard £5 (+VAT) monthly fee.

Pandle Pro has a variety of additional features such as bank feeds, receipt uploads and cash flow forecasting - all designed to help improve the accuracy and efficiency of your bookkeeping.

Making Tax Digital

You might have noticed that HMRC has already begun introducing the first round of changes in their Making Tax Digital (MTD) initiative, MTD for VAT. Since 1st April 2019, VAT registered businesses are now required to keep digital bookkeeping records and submit their returns online.

Silence the alarms bells! Pandle is a HMRC recognised software supplier supporting MTD for VAT, which means you can sleep soundly knowing we've got this transition (and all its rules and regulations) in hand.

Features Of Our Software

Easy To Use, Efficient And Accurate. Here Are Just Some Of The Features Of Our Bookkeeping Software.

Bank Feeds

Automatically pull transactions from your bank accounts & credit cards before quickly categorising and confirming them.

Pandle Pay

Get by paid faster and improve your cash flow by including a payment link on the invoices you send to customers.

Receipt Uploads

Keep all your records and receipts in one place - Pandle. Simply upload and attach them to your transactions.

Bank Rules

Automatically categorise and assign tax codes to your bank transactions, reducing the time you spend on your bookkeeping.

Invoicing

Create and send invoices using our premium templates. Then set up payments reminders to chase late customer payments.

Items

Manage your inventory, automatically track your stock levels and add product or service items to your invoices.

Projects

Tag your transactions in Pandle to maintain profitability and access financial reports on each project you undertake.

VAT Submissions

Ensure you are always MTD compliant by submitting your automatically calculated VAT returns directly to HMRC.

Our Bookkeeping Software Even Has A Mobile App...
